

GENERAL AFFIDAVIT

BEFORE ME, the undersigned Notary,

LOUISE SCHAFER, on this
16th day of August, 2006, personally appeared,
Gary M. Eaker known to me to be a credible person and of lawful age, who being by me
first duly sworn, on his oath, deposes and says:

Find enclosed the following materials for Application No. 10/073,565 for patent
examiner Paula W. Klimach in Art Unit 2135.

- 1) One CD-R with an executable encryption algorithm and source code.
- 2) One copy of the Office Action Summary cover letter received
- 3) One reply to the Office Action Summary
- 4) The original Certified Mail Receipt for materials not received by patent examiner

Paula, note that the time deadlines for replying to the Office Action Summary were
complied with as evidenced by the certified mail receipt. On the CD-R find the folder
labeled "9-29-02 Take2." Within it you'll find the file labeled "GELatest.zip." Within
that file you may run the file "setup.exe" to install a working copy of the encryption
algorithm. The same source code that was submitted on microfiche is also within the
folder labeled "9-29-02 Take2."

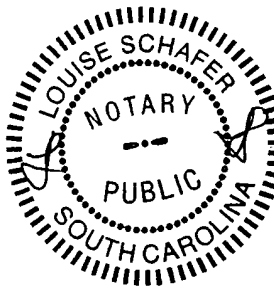

Please contact me if you have any questions as the patent process continues,
